

TRUX ON TOUR WITH THE NEW SCANIA STREAMLINE

Trux demonstration trailer will be out on the Swedish, Norwegian and Finnish roads in the fall.

Trux is touring around Sweden together with Scania to show off their complete accessories range of front protections and light bars for new Streamline.

During the spring Trux hit the road together with Volvo and drove around Sweden to showcase their products to the new Volvo FH. Now they are about to do the same journey – but this time Trux will accompany Scania and new Streamline.

Recently Trux showed their products for the new Scania Streamline and a better way to present them to the retailers and other stakeholders than in the nationwide Euro 6 on Tour will probably be hard to find.

The Scania caravan – Euro 6 on Tour – began at September 13 and will continue until November 10. Trux are going to visit over 50 cities in Sweden, from Tomelilla in the south to Skellefteå in the north, where their demonstration trailer will be present on the majority of the advertised sites.

"The Scania tour gives us a perfect opportunity to showcase our products to the new Streamline for visitors all over Sweden, so we're very thankful that we get the chance to go on the tour" says Hasse Olsson, manager at Trux in Ljusdal Sweden.

Trux is the market leader in Europe of front-mounted safety and styling equipment for trucks. The company was founded in 1986. Its largest markets are Sweden, Norway and Germany. Trux AB is located in Ljusdal in the middle of Sweden and is a part of Mekanotjänst Holding AB which has a turnover of SEK 420 million.
