

SCANIA TANZANIA CHOOSES TRUX

There will be even more Trux front protections in Tanzania, both on old and new Scania trucks.

In late September an order of 30 Offroad front protectors will be on their way to Scania Tanzania in Dar es Salaam from Trux.

– We have delivered a lot of front protectors to Africa over the years and we are pleased that we can continue to have that trust, says Hasse Olsson, manager at Trux Ljusdal.

The front protection Offroad is suited for trucks that require high ground clearance and is made of aluminum to save weight. The front protection is adapted to the car's own lines to reduce air resistance.

Grace Mungure at Scania Tanzania explains why they choose Trux:

– We choose Trux because of their quality products, but also because my customers are always really satisfied with Trux; their short lead times, good communication and excellent customer care. I can say based on personal experience that Trux is one of my best suppliers, says Grace Mungure at Scania Tanzania.

Trux is the market leader in Europe of front-mounted safety and styling equipment for trucks.

The company was founded in 1986. Its largest markets are Sweden, Norway, Denmark, Finland and Germany.

Trux AB is located in Ljusdal in the middle of Sweden and is a part of Mekanotjänst Holding AB which has a turnover of SEK 400 million.
